Surat - Gujrat

Objective

To leverage my skills and passion within an organization committed to continuous learning and professional growth. I aim to contribute meaningfully to the company's objectives while honing my abilities and expanding my knowledge base, thereby fostering mutual success and advancement.

Technical Skills

- **Programming Languages:**
Python, Java, PHP
- **Web Technologies:**
HTML, CSS, JavaScript
- **Database:**
MySQL, MongoDB

Soft Skills

- Quick Learner
- Time Management

Education

- **MASTER OF COMPUTER APPLICATION**
Pimpri Chinchwad University June 2024 - Pursuing
1th Year CGPA: 8.72 out of 10
- **BACHELOR OF COMPUTER APPLICATION**
Uka Tarsadiya University June 2021 - May 2024
CGPA: 8.36 out of 10
- **HIGHER SECONDARY CERTIFICATE**
GSHSEB June 2020 - May 2021
Percentage: 75.00% Percentile Rank: 94.23
- **SECONDARY SCHOOL CERTIFICATE**
GSEB June 2018 - May 2019
Percentage: 69.83% Percentile Rank: 86.78

Projects

- **Attendance System** July 2025 - Nov 2025
Developed an automated **Facial Recognition Attendance System** using **Python (Flask)** and **MongoDB**, featuring real-time face detection, secure centralized data storage, role-based admin access, and detailed attendance reports. The system improves accuracy and supports daily, weekly, and monthly analytics, accessible only to registered users.
- **Warehouse Management System** July 2024 - Dec 2024
Built an automated Warehouse Management System using **Python (Flask)** and **MongoDB**, integrating inventory management, order fulfillment, and shipment tracking. The system improves operational accuracy, enhances efficiency, and enables real-time monitoring of stock levels.
- **DigiRestro** Jan 2024 - Apr 2024
Created an automated Restaurant Management System using **Node.js** and **MongoDB**, digitalizing menu handling, table management, and order tracking. The system improves operational flow, enhances service efficiency, and delivers a better customer experience.
- **Quick Car Hire** July 2022 - Dec 2023
Designed an automated Car Rental Management System using **Core PHP** and **MySQL** to manage vehicle details, customer records, bookings, and payments. The system streamlines rental operations, improves record accuracy, and provides a smooth and reliable platform for showroom management.
